Node.js: API Rest com Express e MongoDB

Tailwind CSS: estilizando a sua página com classes utilitárias

NLW Journey - Reactjs

Next.js: tour pelo Next.js

TypeScript parte 1: evoluindo seu JavaScript

Johanna Liz dos Santos de Oliveira

Frontend Developer | React.js | React Native | Next.js | Node.js | TypeScript
Caxias do Sul, Rio Grande do Sul, Brazil

Summary

Frontend Developer with over 7 years of experience in web and mobile application development. Passionate about creating intuitive and optimized interfaces, I use a wide range of modern technologies, including:

- React.js / React Native / Next.js / Angular / Expo / TypeScript / JavaScript
- MUI / Bootstrap / TailwindCSS / Shadcn / CSS / LESS / SASS / Styled Components
- Jest / Testing Library
- GraphQL / Prisma
- REST APIs
- Node.js
- Docker
- Postgres
- Git
- Scrum

With a degree in Graphic Design, I have a deep understanding of UI/UX and enjoy incorporating these concepts into my projects to ensure maximum usability for all audiences. Experienced with agile practices such as Scrum, I effectively manage projects and am always looking for new challenges to enhance my skills and deliver high-quality solutions. I also have international experience and am committed to continuously improving my craft.

Experience

ConfideceDevs
Frontend Developer
January 2023 - June 2024 (1 year 6 months)

• Developed Scalable Web Applications: Created robust web applications using React.JS, Next.js, and TypeScript. Leveraged Styled Components and SASS for modular and maintainable styling, ensuring a consistent look and feel across applications.

• Enhanced UI/UX with Modern Technologies: Utilized Material UI to implement responsive and accessible interfaces, optimizing user experience and aligning with design standards. Integrated Git for version control and Yarn/NPM for package management, streamlining development processes.

• Built Cross-Platform Apps: Developed mobile applications with React Native, incorporating Stitches for scalable styling and Redux for state management. Applied TypeScript for type safety and Jest for unit testing, ensuring code reliability and maintainability.

• Optimized Development Workflow: Enhanced development efficiency by integrating tools such as Git for version control, and Yarn/NPM for managing dependencies. Ensured code quality and consistency through rigorous testing with Jest.

Routine
• Web Application Development
• Mobile Application Development
• Version Control and Package Management
• UI/UX Implementation
• Code Quality and Testing
•Collaboration and Documentation

Technologies
• React.JS / Next.js / TypeScript / Jest / React Native
• Styled Components / SASS / CSS
• UI/UX
• Yarn/NPM
• Git

Tua Web Tecnologia
Frontend Developer
January 2020 - June 2024 (4 years 6 months)
Remote

• Web Page Development: Designed and developed responsive web pages using HTML, CSS, and JavaScript. Utilized SASS and SMACSS

methodologies to create maintainable and scalable stylesheets, ensuring a consistent and clean codebase.

● Enhanced UI/UX with Frameworks: Implemented dynamic and user-friendly interfaces with JavaScript and jQuery, incorporating Bootstrap for rapid and consistent styling. Enhanced usability and aesthetics through effective use of Bootstrap components and custom styling.

Routine
● Web Page Design and Implementation
● Styling and Layout
● Interactive Features Development
●Code Maintenance and Optimization
● Collaboration and Documentation

Technologies
● HTML / CSS / JavaScript / jQuery
● SASS / SMACSS / Animate.css
● Bootstrap
● UI/UX
● Git

Smatcob
Frontend Developer
April 2023 - January 2024 (10 months)
Remote

● Advanced Web Application Development: Developed robust web applications using React.JS and TypeScript, leveraging Tailwind CSS and Material UI for modern, responsive, and visually appealing user interfaces. Employed Next.js for server-side rendering and static site generation to enhance performance.

● Enhanced Development Workflow: Implemented ESLint for code quality and consistency, ensuring adherence to best practices. Used Git for version control and Yarn for package management, streamlining the development process. Integrated Storybook for UI component development and testing.

● Optimized Build Process: Utilized Vite for faster builds and improved development experience, significantly reducing build times and enhancing productivity.

● Monorepo Management: Managed a monorepo setup to streamline the development of multiple related projects, improving code sharing and dependency management.

- API Integration and Service Consumption: Successfully integrated various APIs and services into applications, ensuring seamless communication and functionality across different components.

Routine
- Web Application Development
- Code Quality and Maintenance
- Component Development
- Build and Development Optimization
- API and Service Integration
- Monorepo Management

Technologies
- React.JS / Next.js / TypeScript
- Tailwind CSS / Material UI
- Storybook / Jest
- Vite
- API
- Monorepo
- Git

Theia
Frontend Developer
April 2022 - October 2022 (7 months)
Remote

- Comprehensive Web Development: Developed dynamic web applications using React.js and TypeScript, implementing state management with Context API and Redux to ensure scalable and maintainable application states.
- Enhanced Styling and Design: Utilized Tailwind CSS and SASS for modern, responsive, and customizable styling, ensuring a cohesive and visually appealing design across all pages.
- Code Quality and Version Control: Implemented ESLint for maintaining high code quality and adherence to best practices. Managed version control efficiently using Git to ensure collaborative development and code integrity.
- Content Management Integration: Integrated and customized content management features using Ghost, enabling flexible and user-friendly content creation and management within applications.

Routine
- Web Application Development

- Code Quality Assurance
- Styling and Design Implementation
- Content Management
- Collaboration and Documentation

Technologies
- React.JS / TypeScript
- Tailwind CSS / Material UI / SASS
- Context API / Redux
- Jest / Testing Library
- API
- ESLint
- Ghost
- Git

OXDREAMS
Frontend Developer
June 2021 - March 2022 (10 months)
Remote

- Hybrid Social Network App Development: Designed and developed a hybrid social network application using React Native, incorporating modern features and ensuring a seamless user experience across both iOS and Android platforms.
- Backoffice Application Maintenance and Enhancement: Maintained and enhanced a Backoffice application using Vue.JS, ensuring its stability and performance. Developed new products with React.JS, employing Styled Components and SASS for advanced styling and component management.

Routine
- Hybrid Application Development
- Backoffice Application Management
- New Product Development
- Feature Implementation and Optimization
- Collaboration and Documentation

Technologies
- React.JS / React Native / TypeScript / Vue.JS
- Tailwind CSS / Material UI / SASS / Styled Components
- Jest / Testing Library
- API

- ESLint
- Git

FullSoft Mobile Solutions
Full-stack Developer
February 2019 - May 2019 (4 months)
Remote

- API and CMS Development: Developed APIs and content management systems (CMS) using GraphQL, ensuring efficient data querying and management. Leveraged React.js and TypeScript for building scalable and maintainable frontend applications.
- Website Development: Created and maintained websites utilizing React.js and TypeScript, incorporating modern design elements and user interfaces.
- Design and Styling: Applied Material UI and Bootstrap to develop responsive and visually appealing web components. Created detailed graphic designs and prototypes using Adobe XD to guide and enhance the development process.
- Database Management: Utilized PostgreSQL for robust and reliable database management, ensuring efficient data storage and retrieval.

Routine
- API and CMS Creation: Developed and maintained APIs and CMS solutions using GraphQL, ensuring effective data handling and integration with frontend applications built with React.js and TypeScript.
- Frontend Development
- Graphic Design and Prototyping
- Database Integration
- Feature Implementation and Optimization
- Collaboration and Documentation

Technologies
- API / GraphQL
- React.js / TypeScript
- Material UI / Bootstrap
- UI/UX / Adobe XD
- PostgreSQL
- Node.js

Axysweb
Frontend Developer
January 2016 - January 2019 (3 years 1 month)

● Web Page Development: Developed and maintained web pages using HTML, CSS, and JavaScript, incorporating SASS and SMACSS methodologies for modular and maintainable styling. Utilized Bootstrap for responsive design and efficient component styling.

● Angular Application Development: Created and managed applications using AngularJS and Angular 2+, focusing on building scalable and robust single-page applications (SPAs). Integrated Ionic 3 for hybrid mobile app development, ensuring cross-platform compatibility and a seamless user experience.

● Ecommerce and Website Development: Developed frontend solutions for various websites and e-commerce platforms, implementing user-friendly interfaces and optimizing performance for enhanced user engagement.

● .NET Frontend Development: Worked on frontend development for views in .NET applications, ensuring integration with backend systems and adherence to design specifications.

Routine
● Web Development
● Angular and Ionic Development
● Ecommerce and Website Solutions
● .NET Integration
● Collaboration and Optimization

Technologies
● HTML / CSS / JavaScript
● SASS / SMACSS
● Angular / Angular 2+ / Ionic 3
